

Wiring

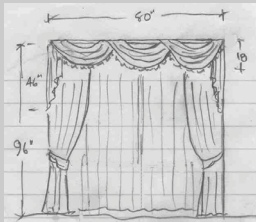

All that is needed for the Motorized Drapery is one standard duplex 110V AC outlet located near the motor.

Light and Glare Control

If other windows in the room or home require attention, manual or motorized blinds, shades or drapery can be added to provide glare control, privacy or complete blackout.

Custom Designs Available

A unique creation can be tailored to fit almost any need.

Delivery

Standard delivery runs 4-5 weeks from date of sale.
