The Telis RTS Collection... brightens the future of Radio Technology Somfy® (RTS)

Enjoy convenient and reliable control of interior window coverings, retractable awnings, rolling shutters and more with SOMFY's Telis Collection. Choose from four unique Radio Technology SOMFY™ (RTS) transmitters that feature a new streamline shape and rubber edging for increased durability.

Combined with the performance of Somfy's AC, DC and battery powered RTS motors, the Telis Collection makes it possible to memorize a "favorite" position. Pressing the "MY" button on the transmitter will automatically send the awning, window covering, shutter, etc. to this position. For example, shades, shutters and blinds will align for a uniform look and awnings will lower to just the right distance to keep the sun's rays out of a home.

The Telis Collection is available in single and five channel versions allowing control of individual or groups of shading systems up to 65 ft. away, and is compatible with Somfy's DecoFlex WireFree™ RTS wireless wall switch, Chronis Comfort RTS timer, Eolis 3D WireFree™ RTS and Sunis WireFree™ RTS sun and wind sensors.

Telis RTS Patio

Ideal for decks and patios, the Telis RTS Patio is shock proof and water resistant. It is also available in a Soliris version so you can conveniently control your sun/wind sensors.

Telis RTS Pure

Enjoy remote control convenience of your interior and exterior motorized shading systems with the simple push of a button. It is also available in a Soliris version so you can conveniently control your sun/wind sensors.

Telis RTS Silver

A new look at shading control, the Telis RTS Silver is a natural blend with any lifestyle.

Telis RTS Lounge

Sleek and smooth, the Telis RTS Lounge adds real sophistication to top line décor.
