

Sivoia QED™ | designer Roman shades

natural woven woods and decorative soft fabrics

 **LUTRON**®

## Sivoia QED™ designer Roman shades

Sivoia QED shading has been dramatically expanded, now offering a broad line of exquisite woven wood treatments as well as an exclusive collection of soft fabrics specially designed to complement Lutron®'s Satin Colors™ lighting controls and accessories.

Sivoia QED designer Roman shades offer the same precise, quiet, elegant performance as Sivoia QED roller shades and drapery track systems.

- smooth, quiet movement
- precise alignment of shades to within .125 in.
- programmable stopping points
- elegant keypads and handheld remotes for increased convenience
- simple, low-voltage installation

## Roman shades in soft fabrics and woven woods

This exclusive line of fabrics and woven woods adds the perfect touch to any interior. With many colors, patterns, styles, and textures to choose from, this world-class collection is further enhanced by Sivoia QED™ technology.

Now, stylish window coverings can operate with precise, near silent elegance. Sivoia QED also allows integration with Lutron® lighting control systems for the ultimate combination of form and function.

## soft fabrics design philosophy

Today's interiors range from traditional to modern and everything in between. The use of vibrant colors, captivating patterns and elegant shade styles complement the creations of the best interior designers. Sivoia QED™ designer Romans shades provide a range of styles to enhance any designer's palette.

DuBois

Cameron

York

West End

## pleat options

### **DuBois**

A tailored, cascade design, best with fabrics that have minimal patterns.

### **Cameron**

A clean, modern, formal pleat design that works well with most patterns.

### **York**

A simple, more casual pleat structure with no seams or horizontal stitching.

### **West End**

A softer, draped approach to Roman shade pleats, ideal for large scale or scenic fabric patterns.

Callisto | Bronze

## soft fabrics

For images of our complete line of fabrics, please refer to the fabric selection guide (P/N 367-1202). Sivoia QED™ designer Romans shades with soft fabrics are available in a range of colors and patterns that complement Lutron® Satin Colors® wallplates, dimmers, and accessories.

For images of our Satin Colors line, please refer to the Colors of Lutron (P/N 367-949 REV B).

Fabric images shown are representational only. See product sample for exact fabric colors. Fabric offerings subject to change without notice.

**Hydra** | Celery

**Nova** | Bronze

**Polaris** | Champagne

## liner options

Fabric liners provide additional light blockage and create a more luxurious look. The DuBois shade utilizes a fabric liner to create a soft pleated look.

### privacy

**Hyperion** | Khaki

## woven woods design philosophy

The natural look of woven wood shades is the perfect complement to both contemporary and traditional décor. Sivoia QED™ designer woven wood shades are available in many textures, colors, and styles. From the delicate look of reeds and grasses to the robust colors of bamboo, the Lutron® collection of woven wood shades adds a vibrant accent to any room.

## woven woods

Delicate grasses and bold bamboo are assembled with a variety of weaving materials to create dramatic natural shades that complement any décor. All selections are specially selected to complement Lutron®'s line of Satin Colors™ wallplates, dimmers, and accessories. For images of our complete line of woven woods, please refer to the selection guide (P/N 367-1201).

For images of our Satin Colors line, please refer to the Colors of Lutron (P/N 367-949 REV B).

## style options

**Standard woven shade** (shown opposite)

Clean lines, hangs flat when fully lowered. Fabric pleats are set between 5" and 9" heights, depending on the material selected.

**Standard woven shade with valance**

Add a valance to conceal pleat panels when shade is fully raised.

## edge binding and liner options

Edge binding adds an elegant and practical finishing touch. It provides a clean, even edge against the window frame while protecting the wood from wear and tear. (Not all woven materials can be edge-bound.)

### edge binding options

**Sakata** | Cocoa

**Sakata** | Lemongrass

**Sakata** | Twill

**Shima** | Cayenne

**Shima** | Coal

**Shima** | Jute

### liners

**Blackout** | White

**Privacy** | Jute
